Every wise investment is an investment for the future, an insurance policy against trouble, in a commonplace way.

You invest not merely in an absolutely safe security that pays compound interest, you invest your money also in FREE GOVERNMENT, you invest your money in democracy triumphant in the world.

The ancient kings rode out in splendor to display their power, and they had thousands and tens of thousands of their subjects crowding about them to testify to their glory and grandeur.

A democracy does not know such things, it has no kings. But there is an impersonal being called Old Uncle Sam. And on quiet nights, when the war's worry is over for a few hours, there is no doubt that he goes out walking over the broad land that is his. When he goes abroad, a hundred millions of Americans should go with him, in spirit. Join the army of those that walk with Uncle Sam. The

who has studied both to this country and in great European Medical Institutions, said: "Nuxated Iron is a wonderful remedy. Not long ago a man came to me who was nearly half a century old and asked me to give him a preliminary examination for life insurance. I was astonished to find him with the blood pressure of a boy of twenty, and as full of vigor vim and vitality as a young man. In fact, a young man he really was, not withatanding his age. The secret, he said, was taking from Nuxated Iron had filled him with renewed life. At 20 he was in bad health, at 46 he was care worn and nearly all in how at had filled him with renewed life. At 30 he was in had health at 46 he was care worn and nearly all in—now at 50, after taking Nuxated Iron, a miracle of situlity, and his face beaming with the buoyancy of youth.

If people would only take Nuxated Iron when they feel weak or randown, instead of dosing themselves with habit-forming drugs, stimulants and alcoholic beverages, I am convinced that in this way they could ward off disease, preventing it becoming organic in thousands of cases, and thereby the lives of thousands might be saved who now die every year from pneumonia, grippe, kidney, liver, heart trouble, and ciber dangerous maladies. The feal true cause which started their disease was nothing more or less than a weakened condition brought on by a lack of fron in the blood. The shands of people suffer from iron deficiency and do not know it. If you are not strong or well, you owe it to yourself to make the following test. See bow long you can work or how far you can walk two five grain tablets of Nayated Iron three times per day affer meals for two weeks. Then jest your strength again and see how much you have gained.
